Strengthening Families™ is a research-informed approach to increase family strengths, enhance child development and reduce the likelihood of child abuse and neglect. It is based on engaging families, programs and communities in building five protective factors:

- **Parental resilience**
- **Social connections**
- **Knowledge of parenting and child development**
- **Concrete support in times of need**
- **Social and emotional competence of children**

Join us at this FREE training to learn about these protective factors and how to help strengthen Gogebic-Ontonagon families.
